OBJECTIVE

I am an adaptable and highly motivated web developer with a successful track record in collaborative team environments. I contribute both technically and in business aspects of web development, and possess exceptional organizational, time-management skills, and attention to detail. I am passionate about staying up-to-date with the latest industry trends and technologies, and skilled in HTML, CSS, JavaScript, SQL, and problem-solving. My positive, can-do attitude fosters team success, and I am eager to apply my skills and experience in a challenging role in the web development or software engineering industry.

COMMUNICATION

During a group project in my web development course, I took the lead on communicating project updates to our team members and ensuring that everyone was on the same page. I made sure to listen actively to my teammates' ideas and provide clear and concise feedback. When we faced technical obstacles, I worked collaboratively with my team members to find solutions and keep the project moving forward. As a result of our effective communication and collaboration, we were able to develop a web app from scratch and deliver a successful project that exceeded our expectations within a tight deadline.

LEADERSHIP

Ordained Deacon of the Syriac Orthodox Church

- Supports the spiritual needs of the church community and fosters a sense of unity and fellowship
- Acts as a role model and mentor to other members of the church, encouraging them to deepen their faith and involvement

Team leader in both big web bootcamp projects

- Lead team to accomplish deploying application within the allocated time.
- Quickly developed a solution for distributing tasks efficiently
- Lead stand-ups and presentations for presenting projects/applications
